DECISION-MAKING FOR MANAGING MENINGOENCEPHALITIS NEWER DIAGNOSTIC AND THERAPEUTIC APPROACHES

29 June 2024, Saturday
Time : 1230 – 1315

SYNOPSIS :

This symposium will delve into the latest diagnostic and therapeutic approaches for managing meningoencephalitis, an infectious neurological emergency with high morbidity and mortality in neurocritical care setting. Emphasis will be placed on rapid diagnosis, advanced molecular techniques, and implications on patient management strategies.

OBJECTIVES :

- To understand the importance of early and timely diagnosis in meningoencephalitis.
- To explore the latest diagnostic modalities, including syndromic molecular techniques.
- To discuss new diagnostic options and their clinical applications.
- To highlight real-world case studies whereby multiplex PCR technology optimised clinical workflow and outcomes.

WELCOME MESSAGE FROM THE ORGANISING CHAIRPERSONS

Dear friends and colleagues,

On behalf of the Organising Committee, we are pleased to welcome you at the Asia Pacific Neurocritical Care Conference (APNCC) 2024 on 28-30 June at the Borneo Convention Centre, Kuching, Sarawak, Malaysia which is jointly organised by the Malaysian Society of Neuroanaesthesiology and Neurocritical Care (MSNACC) and Persatuan Kakitangan Anestesiologi Hospital Umum Sarawak (PEKA-HUS) or the Association of Staffs in Anaesthesiology of Sarawak General Hospital.

Following the successful organisation of inaugural virtual Neurocritical Care Conference (NCC) 2022, 1-3 July which has attracted more than 1,500 attendees from over 40 countries, the Organising Committee has decided to rebrand the NCC to APNCC in 2024. APNCC remains the only meeting in Malaysia and possibly in this region that is fully dedicated to adult and paediatric neurocritical care.

The Organising Committee of APNCC 2024 is collaborating with eminent international societies i.e. Neurocritical Care Society, Society for Neuroscience in Anesthesiology and Critical Care, and Pediatric Acute and Critical Care Medicine Asian Network in this project. Through sharing of knowledge and skills among the local and global multi-disciplinary team members, the care of both adult and paediatric patients with life-threatening neurological or neurosurgical illnesses may be further advanced to drive the best possible patient outcomes.

We wish you an enjoyable and fruitful conference. Don't forget to explore the sights, sounds and tastes of Kuching too, as Kuching has so much to offer to its guests.

Thank you!

Dr Peter Tan

Organising Chair
President, Malaysian Society of
Neuroanaesthesiology & Neurocritical Care
Consultant Neuroanaesthesiologist
Sarawak General Hospital, Malaysia

Dr Chor Yek Kee

Organising Co-chair
National Head of Service in Paediatric
Intensive Care
Senior Consultant Paediatric Intensivist
Sarawak General Hospital, Malaysia

ABOUT APNCC 2024

There is a need to meet the increasing demand of critically ill patients with neurological and neurosurgical conditions. To our knowledge, APNCC 2024 is the only conference in Malaysia and possibly in this region that is fully dedicated to the neurocritical care aspect for both the adult and paediatric population. As such, APNCC 2024 is well-crafted with topics related to the current and upcoming trends in neurocritical care. To achieve this, APNCC 2024 has gathered both local experts and internationally renowned speakers on this platform to share their knowledge and experiences. APNCC 2024 has also partnered with both local and regional biomedical industries to showcase the latest products and services related to neurocritical care that are beneficial to patients with neurological conditions. Hence, health care providers from multidiscipline, neuroscience researchers and policy makers involved in neurocritical care can congregate to learn, share, and establish networks with each other.

STRENGTH THROUGH DIVERSITY

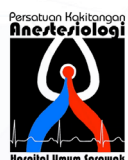

ORGANISING SOCIETIES

Malaysian Society of Neuroanaesthesiology and Neurocritical Care (MSNACC)

There is an emerging number of anaesthesiologists with special interest in perioperative neurosciences from public, private and university hospitals in Malaysia. This subsequently catalyses the formation of Malaysian Society of Neuroanaesthesiology and Neurocritical Care (MSNACC) on 28 May 2021. The MSNACC is a non-profitable, self-generating professional body that remains very close in affiliation with the College of Anaesthesiologists, Academy of Medicine of Malaysia. Through its small but growing number of members, MSNACC aims to facilitate educational activities and development of guidelines on neuroanaesthesiology and neurocritical care in Malaysia. MSNACC also organises educational programme, formal attachments, workshops, international and national conferences, and local training platforms, all for the betterment of perioperative neurosciences in Malaysia.

Persatuan Kakitangan Anestesiologi Hospital Umum Sarawak (PEKA-HUS)

Persatuan Kakitangan Anestesiologi Hospital Umum Sarawak (PEKA-HUS) or The Association of Staffs in Anaesthesiology of Sarawak General Hospital is an institutional society established on 25 March 2018 which coordinates the practice and training of anaesthesiology and intensive care medicine via various training and educational activities. PEKA-HUS is also dedicated in strengthening the profession of anaesthesiology and intensive care medicine, as well as promoting the well-being of its members.

The board members of PEKA-HUS have wide experience in organising national and international events in partnership with other professional societies, namely the 7th Paediatric Anaesthesia & Analgesia Workshop 2010, the 12th Asian & Oceanic Society of Regional Anaesthesia & Pain Medicine Congress 2013, the Borneo Obstetric Anaesthesia Symposium 2014, the 6th Annual Asia-Pacific ICU Rehabilitation Conference 2019, the Neuroanaesthesia Symposium 2017 and 2021 (virtual), and Sarawak Medico-Legal Conference combined with the Medico-Legal Society of Malaysia- Medico-Legal Society of Singapore Joint Seminar 2022.

PEKA-HUS is currently digitalizing its educational activities during this new norm, among them are the Webinars in Neuroanaesthesiology 2021-2022 and the Anaesthesiology Updates 2021-2022 series in collaboration with the Malaysian Society of Neuroanaesthesiology and Neurocritical Care (MSNACC) and the University of Washington, Seattle respectively which have reached out to even a wider range of audience nationwide. The close partnership between PEKA-HUS and MSNACC has also brought to fruition of virtual regional Neurocritical Care Conference 2022, in-person Neuroanaesthesia Symposium 2023 combined with Anaesthesiology Updates 2023, and optimistically the organisation of Asia Pacific Neurocritical Care Conference 2024 and the 9th Congress of Asian Society for Neuroanaesthesia and Critical Care 2027 in Kuching, Sarawak.

WELCOME MESSAGE FROM THE SCIENTIFIC CHAIR

On behalf of the scientific committee, we are thrilled to invite you all to the Asia Pacific Neurocritical Care Conference which will take place from 28 – 30 June 2024 in Kuching, Sarawak, Malaysia.

Sarawak, a Malaysian state on Borneo, stretches along the island's northwest coast, including many beaches on the South China Sea. It's known for the rugged, dense rainforest of its interior, much of it protected parkland. The capital, Kuching, is a bustling city set on the Sarawak River. Its 19th-century landmarks include the Astana, former palace of the White Rajahs, and Fort Margherita, built to thwart pirates.

In this conference, we plan to showcase Asia Pacific Neurocritical Care Conference at its best with quality education, engaging experience and networking opportunities. This while leveraging the capabilities of the StartUp Borneo.

We look forward to welcoming you in the home country, Kuching, Sarawak, Malaysia.

Yours sincerely,

Associate Professor Dr Lee Jan Hau
*Deputy Chairperson, Pediatric Acute &
Critical Care Medicine Asian Network
Senior Consultant Paediatric Intensivist
KK Women's and Children's Hospital, Singapore*

OVERVIEW

Title

Asia Pacific Neurocritical Care Conference 2024

Theme

Strength Through Diversity

Date

28-30 June 2024

Venue

Borneo Convention Centre Kuching (BCKK), Kuching, Sarawak, Malaysia

Jointly Organised By

- Malaysian Society of Neuroanaesthesiology and Neurocritical Care (MSNACC)
- Persatuan Kakitangan Anestesiologi Hospital Umum Sarawak (PEKA-HUS)

In Collaboration With

- Neurocritical Care Society (NCS)
- Pediatric Acute & Critical Care Medicine Asian Network (PACCMAN)
- Society for Neuroscience in Anesthesiology and Critical Care (SNACC)

Supported By

- Sarawak Convention Bureau, Business Events Sarawak
- Malaysian Convention & Exhibition Bureau

Adopted Charity

- S.O.S. Kids

Programme

Pre- Conference Workshops, Plenary Sessions, Symposia, Oral and Poster Sessions, Satellite Symposia, Opening/ Closing Ceremony, Lucky Draw, etc.

REGISTRATION

Please be reminded that your conference badge is personal and non-transferable. You may collect your conference badge at the Delegate Registration Counters located in the Foyer Area, Level 2, BCCK. Please refer to the below table for opening hours:

Date	Time	Dress Code
28 – 29 June 2024	0730 – 1700 hr	Business Casual Attire
30 June 2024	0800 – 1700 hr	

SHUTTLE SERVICE

APNCC 2024 will arrange for a shuttle service from hotels to the conference venue back and forth daily. Please refer to the schedule below:

Date	Pick-up Time	Pick-up Point	Drop-off Point
28 June 2024	0715 hr	Pullman Kuching Hotel	Borneo Convention Centre Kuching (BCCK)
	0730 hr		
29 June 2024	0700 hr		
	0715 hr		
30 June 2024	0730 hr		
	0800 hr		
28 – 30 June 2024	1715 hr	Borneo Convention Centre Kuching (BCCK)	Pullman Kuching Hotel
	1735 hr		

GENERAL INFORMATION

Date

28 – 30 June 2024

28 June 2024 (Pre-Conference Workshops)

29 – 30 2024 (Main Conference)

Country

Sarawak, Malaysia

Venue

Borneo Convention Centre Kuching (BCCK)

The Isthmus, Sejingkat,

93050 Kuching,

Sarawak, Malaysia

www.bcck.com.my

Expected Number of Participants

300 – 600 Participants

Badges

Name Badges must be worn at all times for admittance to all APNCC 2024 programmes.

Certificate of Attendance

Certificate of attendance will be sent through email after the conference.

Exhibition Booth & Poster Panel Display

Both Exhibition Booths and Poster Panel Display are located in Concourse A, Foyer area.

Time Zone

Sarawak, Malaysia is 8 hours ahead of Greenwich Mean Time (GMT +8) and does not observe daylight savings time.

Language

The official language of the Conference is English. All abstract submissions and presentations must be submitted in English.

Internet Access

Complimentary WIFI is available within the Conference venue

Conference Managed By

Kenes MP Asia Pte Ltd

Asia Pacific Neurocritical Care Conference 2024 (APNCC 2024)

20 Kallang Avenue, PICO Creative Centre Level 2
Singapore 339411

Liability and Personal Insurance

The Conference Secretariat and organisers cannot accept liability for personal accidents or loss of/damage to private property of participants, either during or indirectly arising from the Conference.

We recommend that all participants take out personal travel and health insurance for the trip.

Transportation

There are other alternative transportation options, platforms like Grab and Maxim.

ABSTRACT THEMES

- Acute Inflammatory Central Nervous System Conditions and Neuromuscular Disorders
- Artificial Intelligence in Neurocritical Care
- Brain-Heart and Brain-Lungs Crosstalk
- Cardiac Arrest and Brain Death
- Central Nervous System Infections
- Epilepsy
- Multimodal Neuromonitoring
- Neuro-COVID
- Neurocritical Care Nursing
- Neurocritical Care Pharmacotherapy
- Neurorehabilitation
- Outcomes and Research in Neurocritical Care
- Paediatric Neurocritical Care and Postoperative Care of Paediatric Neurosurgical Patients
- Stroke and Aneurysmal Subarachnoid Haemorrhage
- Traumatic Brain and Spinal Injury
- Point-Of-Care Ultrasound in Neurocritical Care
- Perioperative Brain Health

ORAL PRESENTATION | MEETING ROOM 14 | 29 JUNE 2024

PRE CONFERENCE WORKSHOP 1

Workshop Title	Emergency Neurological Life Support (ENLS) 
Date	28 June 2024, Friday
Time	0800 – 1700hrs
Venue	Borneo Convention Centre, Kuching Sarawak, Meeting Room 6
Synopsis	Emergency Neurological Life Support (ENLS) developed by Neurocritical Care Society consists of 14 topics covering a variety of neurologic emergencies. Each module teaches a collaborative, multi-disciplinary approach and provides a consistent set of protocols, practical checklists, decision points, and suggested communication to use during early critical patient management.

Learning Objectives	After completing each topic, the learner will be able to
	<ol style="list-style-type: none">1) Recognize the signs and symptoms of the neurological emergency2) Perform a focused neurological examination and calculate the Glasgow Coma Scale (GCS) score3) Rapidly implement the recommended management protocol and4) Effectively communicate pertinent medical information to the accepting health care provider.

Programme

Time	Topic	Speaker
0800-0830	Registration	
0830-0835	ENLS Welcome and Introduction	Jose I Suarez
0835-0930	Meningitis/encephalitis/status epilepticus	Jose I Suarez
0930-1000	Cardiac arrest	Sarah L Livesay
1000-1030	Coffee break	
1030-1115	Traumatic brain injury/traumatic spinal cord injury	Wong Yu Lin
1115-1200	Coma/Elevated intracranial pressure	Sarah L Livesay
1200-1400	Lunch and Friday prayer	
1400-1430	Pharmacology	Wong Yu Lin
1430-1500	Spinal cord compression/acute non-traumatic weakness	Jose I Suarez
1500-1530	Acute ischaemic stroke	Sarah L Livesay
1530-1600	Coffee break	
1600-1620	Intracerebral Haemorrhage	Sarah L Livesay
1620-1640	Subarachnoid Haemorrhage	Jose I Suarez
1640-1700	Airway/ventilation/sedation	Wong Yu Lin
1700	Adjourn	

Faculty	Jose Suarez (United States) Sarah Livesay (United States) Wong Yu Lin (Singapore)

PRE CONFERENCE WORKSHOP 2

Workshop Title	Neuromonitoring – External Ventricular Drain/ Intracranial Pressure Monitoring; Electroencephalography
Date	28 June 2024, Friday
Time	0800 – 1700hrs
Venue	Borneo Convention Centre, Kuching Sarawak, Meeting Room 5
Introduction	This workshop focuses on EVD/ ICP monitoring and EEG for non-neurologists which are two commonly encountered neuromonitoring in intensive care unit and during perioperative period
Objectives	<ol style="list-style-type: none">1. To understand the basic principles of EVD/ ICP, clinical indications, complications and troubleshooting of these monitoring2. To introduce EEG briefly and its applications in critical care settings, to understand regarding paroxysmal events and when to consider epileptic seizures
Target Audience	Multidisciplinary doctors and allied health professionals working in the areas of anaesthesiology, adult and paediatric intensive care, internal medicine, paediatrics, adult and paediatric neurology and neurosurgery

Programme

Time	Agenda/Topic	Speaker
0800-0830	Registration	
0830-1000	All about EVD and ICP monitoring	Abhijit Lele
1000-1030	Coffee break	
1030-1130	Case discussions: EVD and ICP monitoring (including PRx)	Abhijit Lele
1130-1200	Non-convulsive seizures in ICU	Chidananda Swamy
1200-1400	Lunch and Friday prayer	
1400-1530	Basics of critical Care EEG for non-neurologists	Benjamin Ng
1530-1600	Coffee break	
1600-1700	Interactive session: Paroxysmal events; mimics and chameleon for epileptic seizures	Benjamin Ng
1700	Adjourn	

Moderator	Chidananda Swamy (Brunei)
Faculty	Abhijit Lele (United States) Benjamin Ng (Malaysia) Chidananda Swamy (Brunei)

PRE CONFERENCE WORKSHOP 3

Workshop Title	POCUS in Neurocritical Care
Date	28 June 2024, Friday
Time	0730 – 1700hrs
Venue	Borneo Convention Centre, Kuching Sarawak, Meeting Room 1-4
Introduction	This workshop focuses in sharing the basic skill on point of care ultrasound in neurocritical unit.
Objective	To understand the basic principles of ultrasound physic, point of care ultrasound in brain, eye, heart and shock
Target Audience	Multidisciplinary doctors and allied health professionals working in the areas of anaesthesiology, adult and paediatric intensive care, internal medicine, paediatrics, adult and paediatric neurology and neurosurgery

Toyo Adtec Sdn Bhd
A Member of TA Healthcare Group

Programme

Time	Agenda/Topic	Speaker
0730-0800	Registration	
0800-0820	Course overview. The physic of ultrasound and knobology	Chor Yek Kee
0820-0840	Basic ultrasound of lung	Chor Yek Kee
0840-0900	POCUS of brain	Anis Siham Zainal Abidin
0900-0920	Transcranial doppler	Olive Lee
0920-0940	Basic ultrasound of orbit	Chong Jia Yueh
0940-1000	Coffee break	
1030-1230	Hands on session 120 minutes : Station A and 1: Ultrasound Brain and doppler Station B and 2 : Ultrasound Orbit and airway Station C and 3 : Ultrasound lung	
1230-1400	Lunch and Friday Prayer	
1400-1420	Basic ECHO in neurocritical setting	Pon Kah Min
1420-1440	EFAST	Chor Yek Kee
1440-1500	POCUS in shock	Gan Chin Seng
1500-1600	Hands on session 90 minutes Station A and 1 : ECHO Station B and 2 : EFAST Station C and 3 : POCUS in Shock	
1600 -1620	Coffee break	
1620 – 1650	ContinueHands on session 90 minutes Station A and 1 : ECHO Station B and 2 : EFAST Station C and 3 : POCUS in Shock	
1650 – 1700	Questions and feedback	
1700	Adjourn	

PRE CONFERENCE WORKSHOP 3

Moderator	Chor Yek Kee (Malaysia)
Faculty	Anis Siham Zainal Abidin (Malaysia) Charles Lai Dekun (Malaysia) Chong Jia Yueh (Malaysia) Gan Chin Seng (Malaysia) Gan Kar Wei (Malaysia) Hasliani Hassan (Malaysia) Lau Puong Sing (Malaysia) Olive Lee Pei Ee (Malaysia) Pon Kah Min (Malaysia)

PROGRAMME AT A GLANCE

DAY 1 – 29 JUNE 2024, SATURDAY

Time	Meeting Room 14	Meeting Room 13
0715 – 0800	Registration	
0800 – 0805	Welcome Address Peter Tan (Malaysia)	Welcome Address Chor Yek Kee (Malaysia)
0805 – 0835	Plenary 1: Neurocritical Care Resource Utilization in Pandemics Jose I Suarez (USA) Moderator: Mohd Fahmi Lukman (Malaysia)	Plenary 2: How Preclinical Research is Shaping the Future of Neurocritical Care Vinay Nadkarni (United States) Moderator: Tang Swee Fong (Malaysia)
0835 – 0840	Q & A	Q & A
0840 – 0910	Plenary 3: Neurocritical Care Literature Over The Years Wong Yu Lin (Singapore) Moderator: Yeap Boon Tat (Malaysia)	Plenary 4: Severe Traumatic Brain Injury Management Guidelines – Where Are We Two Years Later? Hari Krishnan (United Kingdom) Moderator: Gan Chin Seng (Malaysia)
0910 – 0915	Q & A	Q & A
0915 – 0945	Coffee, Poster & Exhibition Viewing	
0945 – 1100	Symposium 1: Neurotrauma; Cardiac Arrest Moderator: Zettie Akhtar Shuib (Malaysia)	Symposium 2: The Brain after Paediatric Cardiac Arrest Moderator: Pon Kah Min (Malaysia)
0945 – 1005	Non-invasive Intracranial Pressure Monitoring in Traumatic Brain Injury Mathieu van der Jagt (The Netherlands)	Recent Trends in Management of Paediatric Hypoxic Ischaemic Encephalopathy Gan Chin Seng (Malaysia)
1005 – 1025	Updates on Targeted Temperature Management Samuel Tsan (Malaysia)	Optimizing Blood Pressure and Oxygen Delivery After Resuscitation...and What is on the Horizon? Matthew Kirschen (United States)
1025 – 1050	Neuroprognostication in Comatose Adult Survivors of Cardiac Arrest Sung-Min Cho (United States)	Developing and Translating New Therapies for Cardiac Arrest Vinay Nadkarni (United States)
1050 – 1100	Q & A	Q & A
1100 – 1145	Oral Presentations	Poster Presentations
1145 – 1230	Symposium 3: Neurocritical Care Society Guidelines Moderator: Mohd Fahmi Lukman (Malaysia)	Symposium 4: Potpourri Moderator: Olive Lee (Malaysia)
1145 – 1205	Neurocritical Care Society Guidelines Update I Jose I Suarez (United States)	Prevention of Secondary Brain Injury After a CNS Insult Tang Swee Fong (Malaysia)
1205 – 1225	Neurocritical Care Society Guidelines Update II Sarah L. Livesay (United States)	Endovascular Treatment for Paediatric Acute Ischemic Stroke Kristy Fu (Singapore)
1225 – 1230	Q & A	Q & A

PROGRAMME AT A GLANCE

DAY 1 – 29 JUNE 2024, SATURDAY

Time	Meeting Room 14	
1230 – 1315	Satellite Symposium Decision-making for Managing Meningoencephalitis: Newer Diagnostic and Therapeutic Approaches Harsh Sapra (India) 	
1315 – 1430	Lunch & Exhibiting Viewing	
1430 – 1540	Symposium 5: Stroke Moderator: Zettie Akhtar Shuib (Malaysia)	Symposium 6: Traumatic Brain Injury Moderator: Chong Jia Yueh (Malaysia)
1430 – 1450	Targeted Thrombolysis Raymond Seet (Singapore)	Choosing Right Hyperosmolar Therapy Chor Yek Kee (Malaysia)
1450 – 1510	Anaesthesia for Endovascular Thrombectomy Mohamad Hasyizan Hassan (Malaysia)	Weighing the Balance: Fluid and Blood Pressure in Paediatric Neurocritical Care Arun Bansal (India)
1510 – 1530	The Role of Palliative Care Approach at End of Life in Stroke Patients Sharon Choo (Malaysia)	Brain Injury Monitoring- Is It Worth It? Pon Kah Min (Malaysia)
1530 – 1540	Coffee, Poster & Exhibition Viewing	
1540 – 1615	Q & A	Q & A
1615 – 1700	Symposium 7: Autoimmune Disease; Neurocritical Care of ECMO Moderator: Wong Yu Lin (Singapore)	Symposium 8: Let's Not Forget the Other Organs in Neurocritical Care Moderator: Olive Lee (Malaysia)
1615 – 1625	Autoimmune Encephalitis – Coming to the ICU Near You or Are They Here Already? Amy Quek (Singapore)	Breathing Brain and Thinking Lung: Brain-Lung Support in Patients With Cerebral Oedema and Concomitant Respiratory Failure Anis Siham Zainal Abidin (Malaysia)
1625 – 1650	Neurocritical Care of ECMO – ELSO Guideline Sung-Min Cho (United States)	Microbiome in TBI Arun Bansal (India)
1650 – 1700	Q & A	Q & A
1700	End of Day 1	

PROGRAMME AT A GLANCE

DAY 2 – 30 JUNE 2024, SUNDAY

Time	Meeting Room 14	Meeting Room 13
0830 – 0900	Plenary 5: Delivery of High Value Care in Neurocritical Care Abhijit Lele (United States) Moderator: Laila Ab Mukmin (Malaysia)	Plenary 6: Big data/ AI in Neurocritical Care Hari Krishnan (United Kingdom) Moderator: Pon Kah Min (Malaysia)
0900 – 0905	Q & A	Q & A
0905 – 0935	Plenary 7: How Simulation Can Improve Neurocritical Care Delivery Sarah L. Livesay (United States) Moderator: Samuel Tsan (Malaysia)	Plenary 8: Determining Paediatric Brain Death – Are There Still Controversies? Matthew Kirschen (United States) Moderator: Kristy Fu (Singapore)
0935 – 0940	Q & A	Q & A
0940 – 1015	Coffee, Poster & Exhibition Viewing	
1015 – 1125	Symposium 9: Aneurysmal Subarachnoid Haemorrhage Moderator: Laila Ab Mukmin (Malaysia)	Symposium 10: CNS Infections/ Inflammation Moderator: Anis Siham Zainal Abidin (Malaysia) 
1015 – 1035	2023 American Heart Association and Neurocritical Care Society Guidelines Jose I Suarez (United States)	Point Of Care Transcranial Ultrasound in CNS Infections Olive Lee Pei Ee (Malaysia)
1035 – 1055	Fluid Management in Subarachnoid Haemorrhage Mathieu van der Jagt (The Netherlands)	Acute Disseminated Encephalomyelitis Jocelyn Lim (Singapore)
1055 – 1115	Variance of Care in Subarachnoid Haemorrhage Jose I Suarez (United States)	Acute Necrotising Encephalopathy – Has the Prevalence Changed Since Covid, Can Intensive Care Management Alter the Outcome? Phan Huu Phuc (Vietnam)
1115 – 1125	Q & A	Q & A
1125 – 1215	Symposium 11: Neuropharmacology Moderator: Yeap Boon Tat (Malaysia)	Symposium 12: Meet the Editors Moderator: Raymond Seet
1125 – 1145	Pharmacological Management of Status Epilepticus Amy Quek (Singapore)	Panel discussion: To Discuss on What Editors are Looking for and How to Get Published Raymond Seet (Singapore) Hari Krishnan (United Kingdom) Vinay Nadkarni (United States)
1145 – 1205	Ketamine in Neurocritical Care Abhijit Lele (United States)	
1205 – 1215	Q & A	Q & A
1215 – 1330	Lunch & Exhibiting Viewing	
1330 – 1440	Symposium 13: Neurocritical Care in Special Populations Moderator: Chidananda Swamy (Brunei)	Symposium 14: Global Neurocritical Care Moderator: Gan Chin Seng (Malaysia)
1330 – 1350	Neurocritical Care in Pregnancy Nahemah Hasanally (Malaysia)	Best Practice Management of Seizures and Status Epilepticus in PICU – Global Approach Chong Jia Yueh (Malaysia)
1350 – 1410	Neuromonitoring of ECMO Sung-Min Cho (United States)	Paediatric Neurocritical Care in Resource Limited Setting Arun Bansal (India)
1410 – 1430	Renal Replacement Therapy in Neurocritical Care Unit Mathieu van der Jagt (The Netherlands)	Current Situation and Progress of Pediatric Brain Death Determination in China Quan Wang (China)
1430 – 1440	Q & A	Q & A

PROGRAMME AT A GLANCE

DAY 2 – 30 JUNE 2024, SUNDAY

1440 – 1515	Coffee, Poster & Exhibition Viewing
	Meeting Room 14
1515 – 1600	Symposium 15: Brain Death Moderator: Mohamad Hasyizan Hassan (Malaysia)
	The World Brain Death Project Gene Yong Sung (United States)
1515 – 1535	Ancillary Testing for Determination of Neurologic Death Chidananda Swamy (Brunei)
1535 – 1555	Q & A
1555 – 1600	Plenary 9: Closing the Gap and Shaping the Future of Neurocritical Care Worldwide Gene Yong Sung (United States) Moderator: Nahemah Hasanaly (Malaysia)
1600 – 1630	Q & A
1630 – 1635	Lucky Draw and Closing Ceremony
1635 – 1700	Adjourn

The programme may be subject to change at the discretion of the Organising Committee without any prior notice.

PLENARY SESSIONS

DAY 1 – 29 JUNE 2024, SATURDAY

Time	Meeting Room 14	Meeting Room 13
0805 – 0835	Plenary 1: Neurocritical Care Resource Utilization in Pandemics Jose I Suarez (USA) Moderator: Mohd Fahmi Lukman (Malaysia)	Plenary 2: How Preclinical Research is Shaping the Future of Neurocritical Care Vinay Nadkarni (United States) Moderator: Tang Swee Fong (Malaysia)
0835 – 0840	Q & A	Q & A
0840 – 0910	Plenary 3: Neurocritical Care Literature Over The Years Wong Yu Lin (Singapore) Moderator: Yeap Boon Tat (Malaysia)	Plenary 4: Severe Traumatic Brain Injury Management Guidelines – Where Are We Two Years Later? Hari Krishnan (United Kingdom) Moderator: Gan Chin Seng (Malaysia)
0910 – 0915	Q & A	Q & A

PLENARY SESSIONS

DAY 2 – 30 JUNE 2024, SUNDAY

Time	Meeting Room 14	Meeting Room 13

SATELLITE SYMPOSIUM

Sponsored By

We cordially invite you to attend the forthcoming satellite symposium. Your participation will be highly valued, and we look forward to welcoming you to this enriching and inspiring symposium by our distinguished expert, Dr Harsh Sapra (India).

Title

DECISION-MAKING FOR MANAGING MENINGOENCEPHALITIS NEWER DIAGNOSTIC AND THERAPEUTIC APPROACHES

Details

Date: 29 June 2024

Time: 1230 – 1315

Venue: Meeting Room 14

Synopsis

This symposium will delve into the latest diagnostic and therapeutic approaches for managing meningoencephalitis, an infectious neurological emergency with high morbidity and mortality in neurocritical care setting. Emphasis will be placed on rapid diagnosis, advanced molecular techniques, and implications on patient management strategies.

Objectives

- To understand the importance of early and timely diagnosis in meningoencephalitis.
- To explore the latest diagnostic modalities, including syndromic molecular techniques.
- To discuss new diagnostic options and their clinical applications.
- To highlight real-world case studies whereby multiplex PCR technology optimized clinical workflow and associated learnings.

Faculty

Harsh Sapra
Senior Director
Neuroanaesthesia And
Neurocritical Care Medanta
the Medicity Gurugram, India

Dr. Harsh Sapra is the Senior Director of Neuroanaesthesia and Neurocritical Care at Medanta - The Medicity, Gurugram. With over 25 years of clinical practice, he has extensive experience in neurocritical care and neuroanaesthesia. Dr. Sapra has trained and worked in leading hospitals in India and the UK, including NHS hospitals such as Dorset County Hospital and Mater Hospital in Belfast, as well as Max Healthcare, New Delhi. In his current role, Dr. Sapra established the Department of Neuro-critical Care & Neuroanesthesia at Medanta, creating a 38-bedded dedicated neuro-critical care unit, which is one of the largest in the country. He has headed this unit since 2009, ensuring delivery of care through good medical practice and patient-centric values. Dr. Sapra completed a Fellowship in Neuroanaesthesia and Neuro-Intensive Care at Royal Victoria Hospital, Belfast and holds an FRCP (Glasgow). His qualifications include an MBBS, Diploma in Anaesthesia, and FNCC (Neuro Critical). As the founder president of Neuro Critical Care Society of India, he has received many awards and has completed Executive Leadership for Healthcare Professionals at Cornell University, USA. Dr. Sapra has published numerous research papers in high-impact journals, contributing significantly to the field of neurocritical care.

EXPLORE SARAWAK

Renowned for its breathtaking natural beauty and extraordinary cultural richness, Sarawak provides a charming blend of history and modernity.

Explore world-famous national parks like Gunung Mulu and Niah, home to exotic wildlife. Immerse yourself in the vibrant cultural scene, visiting traditional longhouses and experiencing festivals like the Rainforest World Music Festival. The capital, Kuching, is a vibrant city with historical landmarks, such as the Astana, a former palace, and Fort Margherita, a colonial-era fort. Sarawak is a true gem for those seeking an authentic and enriching travel experience.

Make the most of your trip and explore Sarawak like never before with the experiences below!

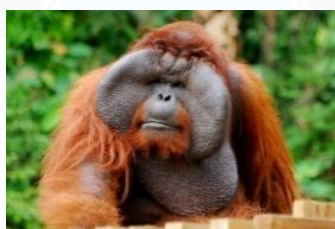

Kuching City Sightseeing Tour

Experience the beauty of a multi-racial community and see places of interest & the essential part of Kuching includes the building of the White Rajahs, (Colonial Law Court, Clock Tower, Charles Brooke Memorial, Square Tower) bustling Chinatown, Chinese Temple. Discover the treasure of Kuching, sight-seeing and enjoy some local shopping at Main Bazaar one of Kuching's oldest streets and Warung Kek Lapis.

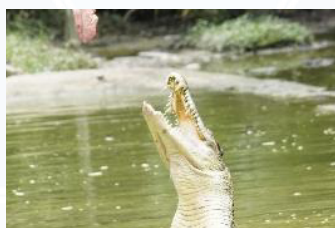

Sarawak Cultural Village

Sarawak Cultural Village is an award-winning Living Museum that spans across 17-acres of land just across from Damai Beach Resort and Hotels. Experience Sarawak in Half-a-day at Sarawak Cultural Village and learn about the local culture and lifestyles of the various ethnic groups in Sarawak.

Semenggoh Wildlife Centre

The Semenggoh Wildlife Centre of Semenggoh Nature Reserve is by far the biggest Orangutan Rehabilitation Centre in Sarawak. Back in 1975, it was established as a sanctuary for Orangutans who are injured, orphaned or being kept captive as illegal pets. This wildlife centre has a thriving population of healthy adolescents and young adult semi-wild Orangutans. They spend most of their time roaming the forest but are trained to get back to the centre during feeding times where they will be able to get a free meal from the caretakers.

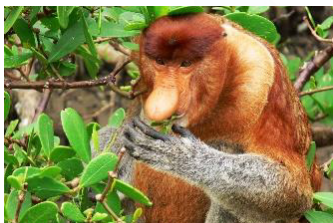

Jong Crocodile Farm

The largest crocodile farm in Malaysia and one of the largest in Southeast Asia. Its main purpose is to conserve and breed crocodiles while also educating visitors about these fascinating reptiles. Expect to see various species of crocodiles, including the fierce saltwater crocodile (*Crocodylus porosus*) and the smaller but equally impressive African dwarf crocodile (*Osteolaemus tetraspis*). The farm provides a safe and controlled environment for the crocodiles, allowing visitors to observe them up close. There are feeding sessions where visitors can witness the powerful jaws and feeding behaviors of these creatures. Other exhibits featuring snakes, lizards, and tortoises, providing visitors with an opportunity to learn about different reptilian species. Additionally, the farm often organizes shows and demonstrations where skilled handlers showcase their expertise in handling and interacting with crocodiles.

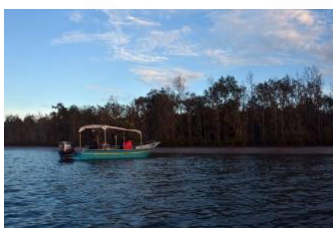

EXPLORE SARAWAK

Bako National Park

The star of Bako National Park is undoubtedly the proboscis monkey, the big nosed, pot-bellied comedian of the rainforest. But the star has a supporting cast of long-tailed macaque monkeys, usually patrolling the park headquarters, silvered leaf monkeys, monitor lizards and squirrels and flying lemurs that glide from tree to tree.

Santubong Wildlife Mangrove Cruise

The wildlife cruise experience of Sarawak takes place mainly in the vicinity of Kuching Wetlands National Park. Across the bay of the park is the historical Santubong Peninsular and it is at the estuary of the river where the dolphin watch happens. The national Park is a RAMSAR site (wetlands of international importance), one of the seven in Malaysia.

SPONSOR

BioMérieux

A world leader in the field of in vitro diagnostics for 60 years, bioMérieux has always been driven by a pioneering spirit and unrelenting commitment to improve public health worldwide. The company is present in 45 countries and serves more than 160 countries through the support of a large network of distributors.

bioMérieux develops and produces in vitro diagnostic solutions (systems, reagents, software and services) for private and hospital laboratories, mainly for the diagnosis of infectious diseases. The result obtained from a patient sample provide doctors with information to support their decision.

For more than 30 years, bioMérieux has also applied the expertise acquired in the clinical sector to meeting industrial microbiology needs, making it possible to manage contamination risks in agri-food, pharmaceutical and cosmetic products, at each step of the production chain.

BioFire Diagnostics is the leader in syndromic infectious disease testing, with more than 25 years of molecular experience and as bioMérieux's Global Center of Excellence for Molecular Diagnostics, BioFire sets the standard for molecular diagnostics through its pioneering advances in syndromic infectious disease testing.

EXHIBITORS

Accord Healthcare

Accord healthcare is UK based, subsidiary of Intas pharmaceuticals is a leading, vertically integrated pharmaceutical formulation development, manufacturing, and marketing company.

Accord Healthcare is committed to challenging the unmet medical and societal needs through a comprehensive pharmaceutical value chain spanning across the world. Accord healthcare is a fast-growing global pharmaceutical company that develops, manufactures and distributes generic, biosimilar and added-value medicines in over 85 countries worldwide, helping to improve access for patients to vital pharmaceutical care at the point of need.

Accord is committed to providing patients and healthcare professionals with high-quality medicines whilst continually looking for opportunities to innovate existing medicines to better meet patient needs. All products are manufactured in facilities that are approved by major global regulatory agencies including the USFDA, MHRA, EMA, TGA, MCC, ANVISA and more. Accord's portfolio spans across critical therapeutic fields such as Oncology, Biosimilars, Cardiology, Neurology, Psychiatry, Diabetes, Pain management and Gastroenterology.

For more information, please visit: <https://www.accord-healthcare.com>

First Pharmaceutical

First Pharmaceutical Sdn Bhd is a pharmaceutical product distributor in Malaysia. In 1987, We established as the subsidiary company of Kyowa Hakko Kogyo Co. Ltd and Sole Distributor for DAIICHI Pharmaceutical Co. Ltd. For almost 35 years, we have built an effective and extensive pharmaceutical distribution network throughout Malaysia for a range of global partners. First Pharmaceutical is one of the local pharmaceutical companies involved in prescription drugs such as antibiotics, anti-cancer agents and OTC products to every hospital, general practitioner and pharmacy throughout Malaysia. We will strive to provide our best services and distribute good quality products throughout whole Malaysia. Our global partners include Daiichi Pharmaceutical Co. Ltd., Kyowa Kirin, Pro.Med.cs Praha a.s, Korea United Pharm Inc., DaeHan NewPharm, JW holding, SeaCross Pharmaceuticals, Laboratoire Aguettant, Medac GmbH, and etc.

For more information, please visit: <https://www.firstpharma.com.my>

Fresenius Kabi

Fresenius Kabi is a global healthcare company that specializes in lifesaving medicines and technologies for infusion, transfusion and clinical nutrition. The company's products and services are used for critically and chronically ill patients. Our product portfolio comprises a comprehensive range of I.V. generic drugs, infusion therapies and clinical nutrition products as well as medical devices for administering these products. Within transfusion technologies, we offer products related to blood products such as red cell concentrates, platelet concentrates and plasma. In addition, we also have equipment for cell salvage and automated cell processing system.

We are committed to putting essential medicines and technologies in the hands of people who help patients and finding the best answer to the challenges they face.

For more information, please visit: <https://www.fresenius-kabi.com>

EXHIBITORS

Intega Healthcare

Intega is a pharmaceutical and healthcare specialist with a proven track record in implementing business strategies for multi-national organizations in South East Asia. We offer market entry expertise for quality prescription drugs, particularly in the specialist fields of Oncology, the Central Nervous System, Cardiovascular, ICU and Urology, and for a wide range of medical devices and consumer health products. Our internationally trained team has many years of industry expertise across the South East Asia region that ensures we can efficiently and cost-effectively cover the market entry groundwork to ensure a speedy market introduction.

Nihon Kohden

Nihon Kohden is a Japanese company that specializes in the development and manufacturing of medical equipment, particularly in the fields of patient monitoring, diagnostic, and treatment technologies. Founded in 1951, Nihon Kohden has since become a global leader in the healthcare industry, known for its innovative and reliable products.

The company offers a wide range of medical devices and solutions, including bedside monitors, electroencephalography (EEG) systems, defibrillators, patient monitoring systems, and neurology diagnostic equipment, among others. These technologies are used in hospitals, clinics, and healthcare facilities worldwide to monitor patients' vital signs, diagnose various medical conditions, and provide effective treatment.

Nihon Kohden is committed to advancing healthcare through research and development, focusing on improving patient outcomes and providing healthcare professionals with the tools they need to deliver high-quality care. The company's dedication to innovation, quality, and customer satisfaction has earned it a strong reputation in the medical device industry.
